

Type 4 – Codes (B)

You have to work out a code. The boxes on the left have shapes and the code letters that go with them. The top letters mean something different to the bottom letters. Work out the codes for the test shape.

EXAMPLE:

Solution

Look for which code letters the three shapes have in common; in this case, it's letter D, which represents a triangular nose. E must therefore mean an oval nose. The letters A, B, C mean the orientation of the smiley; A = upright; B = upside-down; C = on its side. Our test shape has an oval nose and is upside-down. Hence answer code is BE – Answer B.
